

The Humanbecoming Community Model

Moving-Initiating	Anchoring-Shifting	Pondering-Shaping
<p>Discarding—creating with the emerging now</p> <p><i>Tunneling</i> is digging under, piercing the depths in cocreating situations for deliberately earthing and unearthing ideas, objects, and events.</p> <p><i>Driving</i> is forging directly with intensity in cocreating the shifting patterns of diversity.</p> <p><i>Laddering</i> is climbing multidirectionally in planning and executing strategies.</p> <p><i>Boating</i> is steering while navigating the calm-turbulence of shifting waves and wind, harnessing moments of buoyancy, yet always with ambiguity.</p> <p><i>Swimming</i> is gliding with diverse currents in keeping afloat with sureness-unsureness.</p> <p><i>Submarining</i> is immersing in a high pressure enveloping at great depth with the shifting of what is known and not-yet known explicitly.</p> <p><i>Ballooning</i> is drifting vigilantly with the pattern of the whole in a buoyant surge-release, while shifting winds cocreate the unexpected.</p> <p><i>Motorflying</i> is propelling persistently with the gravity of weaving winds.</p> <p><i>Swinging</i> is soaring in undulating suspension with gusts of shifting winds in swingshifting to and fro in a bold leaping beyond.</p>	<p>Persisting—diversifying with the emerging now</p> <p><i>Savoring-sacrificing</i> is delighting in and all-at-once foregoing something of value.</p> <p><i>Revering-liberating</i> is honoring while all-at-once freeing.</p>	<p>Contemplating---configuring with the emerging now</p> <p><i>Considering-composing</i> is deeply contemplating with all-at-once creating anew.</p> <p><i>Dialoguing-listening</i> is unconditional witnessing with speaking-being silent and moving-being still.</p>
